New Regulations

Regulations have been issued under the National Selective Service and become effective September 1.

The general effect is to freeze labor on the job, and is important to employers and employees.

One group of regulations (A) applies to all workers and employers except those employed as female domestics in one-servant homes; by provincial governments; in agriculture, fishing or trapping; as teachers, nurses or probationers; in casual labor; as students at work after school; in part time subsidiary employment, not regular occupation; as ministers; as professional engineers or science workers under Wartime Technical Bureau.

The other group of regulation (B) affects all workers.

Rules for Group A

1. No worker may quit his job without giving his employer 7 days notice in writing.

2. No employer may lay off or discharge any worker without 7 days notice in writing.

2. No employer may engage any worker unless such worker has a permit to seek employment.

4. Permits may be obtained from National Eelective Service offices—formerly local offices of the Unemployment Insurance Commission.

Rules for Group B

The regulations for Group B apply to all workers.

A National Selective Service Officer has the power (a) to order any person to report for an interview at the local office (b) to order any person who has been unemployed 7 days to take any suitable work, (c) to order any partially employed person to take any suitable full-time work.

No person ordered by a National Selective Service officer to take a job may quit such job without permission of the officer.

When a worker has to travel to a distant job the National Selective Service officer may pay cost of transportation and certain allowances.

If a worker at request of the National Selective Service officer changes from less to more essential work, he may claim reinstatement of his former job when the more essential work is finished.

Agricultural workers may take seasonal employment outside agriculture with the consent of Selective Service officers when such work will not interfere with farm production, and by taking such work they will not lose their right to postponement of military service.

Farm Workers

It is permissible for a farm worker to take another job for a period up to 30 days without losing his status as elegible for deferment from call up. But a permit is required if he is to be away from the farm for more than 30 days. It is desired that farmers get off the land and undertake other war work in slack periods.

For all employment permits will be granted by selective service officers on the basis of priority schedule.

To Equalize Wages

In order to equalize wages, an effort will be made that a man be not asked to go to a poorer paid job than the one he is now in. Cost of transportation and supplementary allowances are provisions included in regulations.

All Must Work

As labor supply decreases, employers must be ready to make greater use of women, and to expect curtailment of less essential industry.

Employers should be prompt in answering any requests for information. They will shortly be asked to file returns giving the number of their employees and other information required.

Broadcast of Prime Minister

Prime Minister King in a recent broadcast announced: "The government's policy is that every man and woman capable of performing some form of war service should undertake the service for which he or she may be best qualified, and which the demands of war require."

A special registration of womanpower will be undertaken shortly.

Also, in the near future, employers will be asked to report all additions to and seperations from their staffs since April 1st.

Control will be established over "help wanted" and "situations wanted" advertisements.

After a fixed period, unemployed persons cay be required to accept any available suitable work, and persons employed less than normal full-time may be required to transfer to available, full-time, suitable work for which there is special need, or in other words what is spoken of as work of "high labor priority."

RED CROSS NOTES

The Finance Committee wish to acknowledge that the result of the tag day held Saturday, August 29th was the sum of $102.81.

The work committee has a lot of knitting and sewing on hand and will be glad of the help of the ladies of Vulcan and district.

He is survived by his parents, and one sister Kathleen, at home, and two brothers, William of the Armada district and Gordon who is serving in the army in Canada.

WEDDINGS

ROFFLER — CHAPMAN

A quiet wedding was solemnized at the home of the bride's parents on August 26th when Miss Bernice Chapman, daughter of Mr. and Mrs. Jas. Chapman of Vulcan, became the bride of L. J. Roffler, son of Mr. and Mrs. Joseph Roffler of Calgary.

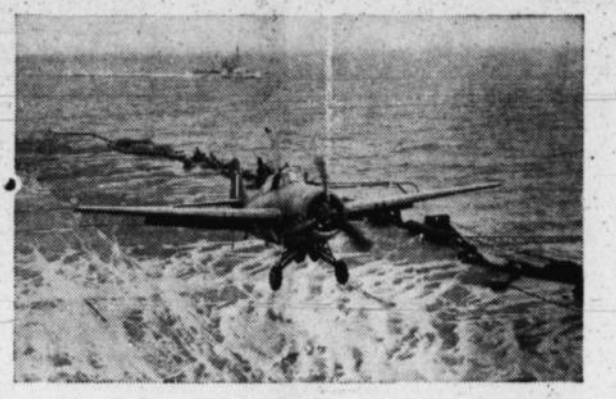

The bride was beautiful in a gown of long white sheer with lace and shoulder length veil caught with flowers and carried a bouquet of pink and white asters.

The wedding took place on the porch under an arch of boughs and flowers. A large white bell and pink and white streamers decorated the room.

The bride entered the room on the arm of her father to the strains of Lohengrin's wedding march played by Miss Irene Sommers of Champion. Rev. Peter Dawson, M.L.A., officiated. During the signing of the register, Mrs. Lyons and Miss Sommers sang "I Love You Truly."

The guests, number about 25, assembled in the dining room where a buffet luncheon was served. The house was beautifully decorated with flowers.

Following the ceremony the happy young couple left for Vancouver where the groom is in training with the navy. For her going away outfit the bride chose a dress of torquoise green with white trimming.

New Ration Book How To Use Coupons

Coupons Valid for Certain Given Periods and Thereafter, Not Before. Do Not Detach "Spares" B, C, D

By this time every household has received ration books, covering allotments of sugar, tea and coffee. Each member of a household is entitled to a book.

The most important thing is not to lose the coupon book. Any householder carrying a number of these books is advised to have a sturdy envelope or casing to hold them together. They have to last till February 22, 1943.

Appearing in advertisement, page 3 of the Times, is information covering use of the new ration books.

They are not usable till Monday, Sept. 7, and will be good for the six month period thereafter. Coupons are numbered up to 13. For example, Coupons 1 and 2 become valid Sept. 7 and may be used any time thereafter. Each coupon represents a two weeks' supply. Coupons 3 and 4 become valid on Oct. 5 and thereafter, and so on, covering the six month period.

Coupons marked sugar can be used only for sugar. Each coupon is good for one pound of sugar, or a two weeks ration for one person.

The tea and coffee coupons are marked "Spare A." Each coupon is good for a two weeks' ration, either of tea or coffee. The two weeks' ration of tea is two ounces; the two weeks' ration of tea is two ounces; the two weeks' ration of coffee is half-a-pound.

There are other series of coupons in the book, marked "Spare B," "Spare C," and "Spare D." No present use is specified for these, but in case other foodstuffs, clothing, etc. become rationed, these spares can represent a certain unit which may be purchased. It is important that these spares are not detached, as they may be put into use later.

At the back of the book is a post card. This must not be detached until further notification. Its purpose is to serve as a return postcard in applying for the next ration book.

Other instructions governing the ration books are covered in the advertisement in this issue.

OBITUARY

FUNERAL SERVICES MRS. MARION CRABB

Funeral services for Mrs. Marion Sarah (May) Crabb, aged 26, were held on Saturday, September 5th in the United Church, Vulcan. The large attendance which overflowed the auditorium and the many beautiful floral tributes spoke of the high esteem with which Mrs. Crabb was held by the community.

The services were conducted by Rev. S. Pike of the United Church while Rev. E. G. Hansell of the Church of Christ gave the message. Interment was held in the Vulcan cemetery.

Born in Scotfield, Alta., deceased came to Vulcan with her parents, Mr. and Mrs. J. B. Morley, in 1926. She attended the Vulcan high school and later took some studies at the Church of Christ Bible College in Lethbridge. On February 26, 1941, she married William Crabb, whose parents, Mr. and the late Mrs. David Crabb Sr., have lived in the district for many years. They were affiliated with the United Church.

Pte. Crabb is now serving with His Majesties Forces overseas. The community's heartfelt sympathy is extended to her husband and relatives. She will be much missed by a host of friends in town and district.

FORMER RESIDENT OF VULCAN DIES AT LACOMBE

Fureral services were held in the St. Andrews' United church at Lacombe Monday afternoon, August 24 for Arthur A. Harriman, who died suddenly due to a heart attack. Rev. Dalgleish of Claresholm, an old friend of the family, officiated.

Mr. Harriman, aged 71 years, was born in Chatham, New Hampshire, June 30th, 1871. At the age of eleven he moved with his parents to North Dakota, where he resided for 42 years. In 1894 he married Elizabeth Matthews of Oberon, North Dakota. In 1926 Mr. Harriman and family moved to Alberta, settling first at Claresholm and later moving to the Vulcan district. In 1939 he moved to Lacombe.

He is survived by his wife, five sons Archie, Raymond and Herbert, all of Lacombe, Rendall of Claresholm and Harold of Calgary; two daughters, Mrs. Frank Nash of North Dakota and Mrs. Jack Welsh of Brant. Fourteen grandchildren and one great-grandchild also survive.

Pallbearers were the five sons and a friend of the family, George C. Jones.

Six grandsons acted as flower bearers. Interment was made in the Lacombe cemetery.

Open Season For Migratory Birds

In the part of Alberta south of the Athabaska the open season for ducks, geese, rails and coots is from one-half hour before sunrise Sept. 14 to one-half hour after sunset Nov. 28.

No person shall kill, hunt, capture, injure, take or molest any migratory game birds during the closed season; and no person shall sell, expose for sale, offer for sale, buy, trade or traffic in any migratory game bird at any time.

The taking of the nests or eggs of migratory game, migratory insectivorous and migratory non-game birds is prohibited.

The possession of migratory game birds killed during the open season is allowed in Alberta until March 31 following open season.

Bag Limits

Ducks, 12 in any day; Geese, 5 in any day; Coots and Rails, 25 in any day; Wilson's or Jack-snipe, 10 in any day; and not more than 100 Ducks or more than 25 Geese, or more than 100 Rails and Coots in the aggregate or more than 200 Wilson's Snipe in one season.

No one shall have in his possession at any time more than 36 Ducks.

Guns, Appliances and Hunting Methods

Forbidden—The use of an automatic (auto-loading) gun, or a swivel or machine gun, or battery, or rifle, or shotgun loaded with a single bullet, or any gun larger than number 10 gauge, or any weapon other than a gun; and the use of live birds as decoys, or any aeroplane, power-boat, sail-boat, or night-light, and shooting from any motor or wheeled vehicle or a vehicle to which a draught animal is attached. The hunting of migratory game birds by the use or aid of baiting with grain or other artificial food is prohibited.

Looking Forward To War End in 1943

According to A. C. Cummings of the Southam press, there is a growing belief in England that the Nazis will be back inside their own frontiers by the end of 1943. The main lines of war development for the next twelve months are believed to include:

1. A British, Canadian and American invasion of the continent, together with revolt of tortured peoples.

2. The Russians holding out this winter, and with strength enough to drive the Germans out of Russian territory in the spring.

3. The battle of Egypt to give British control of eastern Mediterranean and bases, so that invasion of Italy may be undertaken.

4. India and Australia as Allied bases so powerful that campaigns to recover Burma and the Dutch East Indies could start.

5. All Germany's armament cities blitzed into ruin, so that the army is handicapped in every battle and hundreds of thousands of Germans are left homeless.

It is expected that the pioneer road along the Alaska highway will be completed by December 1 if present progress is maintained. More than 1000 of the 1600 miles are now almost finished. It allows two-way traffic. Cooperation between American and Canadian forces in the area has been excellent.

Mr. Errett King is converting the upper floor of the drug stores into three suites to help relieve the housing shortage.

KIRKCALDY

The first load of wheat was brought in on Saturday by Leon Coe, farmer in the Alston district. This was delivered to the Alberta Pacific elevator and graded No. 1, weighing 63 pounds per bushel. Jimmie Walker is the new A.P. buyer. Harry Roebuck also delivered wheat on Saturday to the National elevator.

Monday saw many combines in the fields and if the weather continues fine harvesting will be general by the end of the week.

Mr. and Mrs. W. Morley and daughter, Leone, Charlie and Shirley Johnston of Vancouver, Wash., are visiting at the home of Mr. and Mrs. Henry Todd.

Miss Marjorie Kehr was a week-end visitor in Calgary.

The Kirkcaldy school children had a holiday on Labor day.

Mr. and Mrs. L. Wilhite and family spent the week-end with relatives at Claresholm.

Miss Barbara Todd who is attending school in Lethbridge, spent the week-end with her parents, Mr. and Mrs. Henry Todd.

W. Brinton and B. Carnegie were Calgary visitors last week.

Dave Carnegie of Lethbridge, was a visitor last week at the home of Mr. and Mrs. Bus Carnegie.

Mrs. Steve Lang and Miss Helen Lang were Lethbridge visitors last week.

Living-Cost Bonus For Employees

Owing to the rise in the cost of living, a cost of living bonus has been authorized by the National War Labor Board. It is decreed that employers who are paying cost of living bonus shall adjust the amount of such bonus payment in relation to higher cost of living. Employers not paying a cost of living bonus shall commence payment.

The amount of this bonus is in relation to present wages. For employees under certain section of the War-time Wages Control Board the increase is 2.4 points. In other cases, it is a rise of 60 cts. per week. In no case must the cost of living bonus exceed $4.25 per week. In no case must the bonus exceed a total weekly bonus of 17% of the weekly wage rate.

GOVERNMENT INSURANCE
IN CASE OF
WAR DAMAGE TO PROPERTY

OWNERS OF PROPERTY ARE URGED TO INSURE AGAINST LOSS BY ENEMY ACTION

The Government of Canada, by Act of Parliament, has set up a Plan of War Risk Insurance against damage to property caused by enemy action—by countermeasures taken against the enemy—by explosions of war munitions handled by third parties.

In terms of general information, it may be stated that the Plan provides a certain limited FREE COMPENSATION for damage to owner-occupied homes and to chattels, but the main feature of the Plan is that owners of most types of property can protect their property by PURCHASE of GOVERNMENT WAR RISK INSURANCE at very moderate rates.

This type of War Risk Insurance is not being sold today by private insurance companies, because of the risk involved. Consequently, the Government has established a national scheme to make it possible for each citizen in Canada to purchase the sense of security that comes from knowing that if his property does suffer war damage (and the war has come much closer to Canada in the last twelve months) he can call on the resources of Canada to help him make good his property loss.

HOW TO OBTAIN GOVERNMENT WAR RISK INSURANCE

The Fire Insurance Agents and Companies of Canada have volunteered to the Government the services of their extensive facilities and personnel, on a non-profit basis, thus avoiding the setting up of the large organization that otherwise would be needed to handle details of this nation-wide Government War Risk Insurance scheme.

YOUR FIRE INSURANCE AGENT OR COMPANY WILL GLADLY SUPPLY COMPLETE DETAILS OF THIS GOVERNMENT INSURANCE PLAN.

THIS ANNOUNCEMENT IS PUBLISHED so that the public may have notice of the Government War Risk Insurance Scheme. The information given above is not intended to be a complete resumé of the Scheme. Full information regarding conditions, exclusions, etc., is available elsewhere.

TO HOME OWNERS HOUSEHOLDERS and OTHERS

Limited free compensation is provided under the Act for War Damage by enemy action to owner-occupied homes up to $3,000. Damage to Householder's Chattels, up to $800—for those of his wife, up to $400—for each child under 16, up to $100—for others, not householders, up to $200.

No policies are needed in this classification but insurance additional to the above amounts may be purchased.

Ask any Fire Insurance Agent or Company for complete details.

Giving Care To Kitchen Equipment

Housewives Should Read Carefully This Article on the Care of Kitchen Utensils

Every article of metal in the home, from pots and pans to flyswatters, must be made to last as long as possible. Here are some pointers in the use and care of metal cooking equipment;

Any aluminum pots or utensils can be made to last longer if they are washed as soon as possible after food is cooked in them. Never use an alkaline solution such as soda, as this corrodes the metal. Clean with a mild soap and finest abrasive.

Treat enamelware with great care as the surface is only too easily cracked or chipped. Never allow to boil dry, and cool before washing. Do not pour cold water into a hot pan. Soap water boiled in the pan will loosen obstinate burns.

Iron pots should be well dried after washing. An iron utensil used only once in a while should have a thin coat of saltless oil or fat put on it, then put in a dry place, and wrapped in paper.

Stainless steel can be kept clean with a gritless cleaning powder or very fine steel wool, otherwise the usual washing, rinsing and drying.

To keep brass and copper clean and in good condition, wash with soap and water. Spots may be removed if rubbed with hot vinegar and salt or lemon rind and salt or buttermilk.

Nickel and chromium plating can be kept bright by being wiped with damp cloth or with washing in soapy water, rinsing and drying.

As to tin—don't try to keep it shiny or the thin coating of tin will be taken off. To remove burnt food try boiling a little soda and water in the tin pan, but don't boil it longer than five minutes. After drying stand in a warm place to be sure that there is no moisture left on the surface before putting away.

Canada's Bomber Fighter Groups

Distinctive Canadian Units to be Formed on Military Front in England

Canada is to have distinctive bomber and fighter groups in the United Kingdom. A Canadian bomber group of from 10 to 20 squadrons would be formed in Britain by the end of 1942. Fighter groups would come later with about 40 squadrons operating with the R.A.F.

When the bomber group is organized it will fly as an individual group or as part of combined airforce. A full R.C.A.F. fighter squadron has been in the Middle East for some months.

At present about 25 R.C.A.F. squadrons are in the United Kingdom, either organized or in operation in addition to thousands of Canadians operating with the R.A.F.

Major Powers states that if Canada had not undertaken the British Commonwealth Air Training Plan for instruction of Empire airmen there would now have been from 25 to 30 squadrons in England, fully manned by Canadians. Senior Canadian officers had to be kept at home to maintain training plan.

A FATHER'S FAREWELL TO HIS SOLDIER SON

(Bill is William H. Purcell, Jr., son of W. Henson Purcell, managing editor of the Daily American, West Frankfort, Ill. This article is reprinted from the Daily American of March 9, 1942.)

Well, Bill, your number is up. You are going to the army. There is a job of serious, nasty, uncivilized business to be taken care of and you have been assigned a part in it.

The task is unpleasant, repulsive. The assignment is different to anything that you had planned. Yet, it is a privilege as well as a responsibility. For only Americans—the finest of the nation's manhood—are eligible to march with Uncle Sam's armed citizenry and to participate in this grim game of war.

There is, now, but one thing to do. Make the most of it. Be a soldier in every sense of the word.

I told you, as a little curly-headed boy, when you started to school, that I wanted you to endeavor always to be the best in your classes. I had no idea that you would achieve that distinction. I had not been that calibre of student before you. But that kind of aiming never has a bad effect on the score.

Then, when you grew up and was thinking of your first job, I told you that, even though you were employed at nothing more important than ditch-digging, I wanted you to try to be the best ditch-digger on the job. I had no idea that you would achieve such top-rank standing in your chosen vocation. I had not. But ambition and the will to get ahead never kept anybody down.

Now, as you march with millions of other sons from millions of other American homes, I want you to put all that you have into this business of soldiering. It matters not whether you ever wear bars or stars if you are man enough to be a good soldier. And being a good soldier means more than drilling and marching and fighting—and dying.

It means living—in a man's world—as a man should live.

There is an inclination on the part of too many men, once they are in the army—away from the influences of home and family and reputation—to cut loose, go the gaits. There is in the army, as in civilian life, every type of manhood and of every social strata. Every man is on his own. The choice is yours.

Men, like water, ultimately seek their own level—in the army as elsewhere. Don't lower your standards, Bill.

Then, there is the matter of soldiering. The fellows who have difficulty with army life are those who refuse to adjust themselves to the rigid discipline that, although quite stern and harsh, is as necessary as are guns and tanks and planes. The "yes, sir" men are those who get along in the army.

To attempt to buck the game is folly. The army is bigger than any man in it. Failure to become a working part of it is the worst mistake any soldier can make. Army life is not easy. To cultivate a mental feeling of resentment and self pity can only make it more difficult. That is true of any station in life.

So, I hope, Bill, that you will be able to accept your lot in this grim business as just another chapter in life's exacting school of experience and endeavor to get out of it something worth while; something that will help in the years ahead.

You can always find that something if you search diligently for it. Never cease searching.

I am saying these things to you—not because you are different to the millions of other young men who have gone and are going out to engage in this world contest in death—but because you are of my own flesh and blood.

Because, man though you are, you will ever be that little boy of mine.

The uniform that will shortly be issued to you stands for the high and noble principles upon which this nation was founded and has since existed—principles that, to much of the rest of the world, are unknown. It stands for freedom among men and nations; the right to live and the will to let live. It stands for humanity, civilization, Christianity.

It has never gone to war except in defense of the principles for which it stands. It has never gone on a rampage of conquest or oppression. That uniform, Bill, is the hope of Old Glory and 130 million Americans. It is the hope of civilization. Wear it proudly.

I remember well that day, almost twenty-four years ago, when, while sitting in a lecture period at Camp Gordon, I was handed a telegram that announced that you had made me a father. I was the soldier, then. You were the war baby.

I remember the day, four months later, when I gazed for the first time upon your face. I remember every day of your life since that time. I shall watch—and pray—every anxious day for your safe return.

When you have a son of your own some day, as I hope you shall, you will know what I mean. I hope your going to the army will be more successful in freeing your sons from the scourge of war than was mine for you.

There are two things that I want to give you, Bill, as you go to join other fathers' sons in this business of killing, from which God alone knows whether you will return.

Both went with me into the army twenty-five years ago.

One is a khaki-covered textbook on military methods and soldiery. Peruse its pages and endeavor to master the art of being a good soldier. It may not bring you promotions and high honors for there are in the army, after all, more men than anything else. But it will bring to you the satisfaction of doing well whatever you do. It will help you to learn more quickly what is expected of a good soldier.

The other, also khaki-covered, is a Bible. Don't feel that to take it is being sissy. There will no doubt be times when just to hold it in your hand will bring a mysterious comfort. I confess that I read it but little while I was in uniform. Yet there were times when its nearness—the knowledge that it had stood the test of all time and countless other wars—seemed to sort of satisfy my longing for you and Mom—lull my homesickness for all the peaceful ways of life that had been disrupted by war.

Take them, Bill, and use them. Make the most of the army and come back a better man that when you left. There is, you know, a personal as well as a national victory to be won.

It seems a bit silly, doesn't it, to send you away with a gun in one hand and a Bible in the other? The gun to kill. The Bible: "Thou Shalt Not." There is no explanation except that the gun appears for the present to be necessary to our national security. The Bible has ever been our hope of eternal security.

Learn to use the gun, Bill, but ..ely, finally, upon the Bible.

And may the Good Lord—although I confess it is a big assignment—watch over and keep you, and those who go with you as the guardians of American freedom, until the day—and may He speed the day—when we shall thank God for peace and a safe homecoming.

So long, Bill.

LETTER TO THE EDITOR

The Editor:
Vulcan Advocate.

The publicity which has been given to the bumper crop which is in prospect in Alberta no doubt leads many people to think this will be a money making crop for the farmers. As a matter of fact it will not be so. Production costs have been high and all of the 20c raise in the price of wheat has been absorbed by production costs.

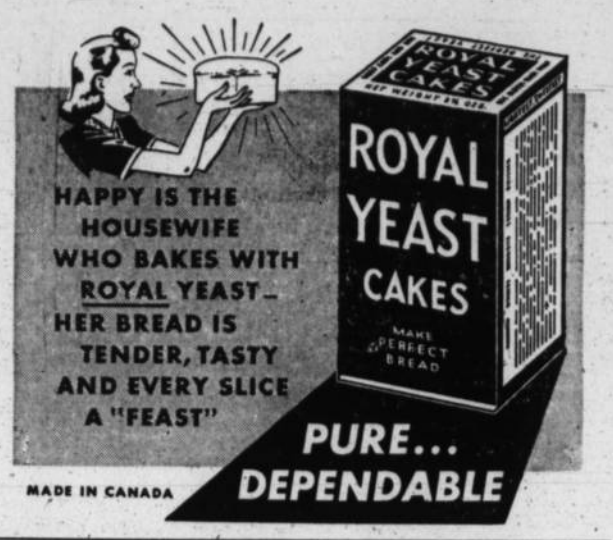

The plentiful rain in the summer caused a heavy growth of straw which the wet and windy weather has caused to go down. This will make harvesting a hard, difficult and expensive job both for men and machinery and with the shortage of labour, especially the skilled variety it is doubtful if all the crop can be harvested. Many farmers have expressed the opinion that this crop will cost them more than it is worth and they will harvest what they can and just let the rest go.

It is only fair to the farmers that all the citizens of the province should know these facts because the mortgage companys are adopting the attitude that higher prices for cattle and hogs during a brief spell of a few months duration will enable farmers to pay the interest and principle on debts accumulated during the past 12 years of desperately low prices

This belief has been encouraged by our Minister of Agriculture, Mr. J. C. Gardiner who optimistically envisions three or four good crops "like this" before the first one is harvested; and suggests that from these "prospective good crops" the sowing of which will not take place until from one to three years hence, the farmers should not only pay their debts but SAVE.

Our Minister of Agriculture should refrain from making statements which not only leave a false impression but also make him look rediculous.

Yours truly,
H. E. Nichols,
Secretary, Alberta Farmers' Union.

THE NEW INCOME TAX

PART I - *As it Affects*

SALARY AND WAGE EARNERS

1. *Question:* WHO MUST PAY?

Answer: All persons in receipt of incomes over $660 single—or $1200 married.

2. *Question:* WHAT FORMS DO YOU HAVE TO FILL OUT?

Answer: Unless you are single, without dependents, and not making payments for allowable personal savings (Item 5D), you should file Form TD-1 with your employer. Otherwise he *must* deduct the amounts provided by the Table of Tax Deductions for a single person without dependents or personal savings.

If ¾ or more of your income comes from salary or wages, you must file your 1942 Income Return by 30th September 1943. If your income is not over $5,000, including not over $100 from investments, you will use Form T1-Special; otherwise you will use Form T.1.

3. *Question:* WHEN AND HOW IS YOUR TAX COLLECTED?

Answer: Your employer is *required by law* to make deductions from your salary or wages on account of your 1942 tax during the period September 1942 to August 1943. Each deduction must be the amount provided by the official Table of Tax Deductions for your *current* rate of pay, and family status and personal savings as declared on Form TD-1 (Item 2 above).

The Table is designed to collect about 90% of the tax on your salary or wages, leaving a balance of not more than 10%, in most cases, (plus tax on your other income, if any) to be paid with your Income Return to be filed in September 1943.

If your salary or wages are less than ¾ of your income, you must pay tax on your other income by compulsory instalments. (See Part II below).

4. *Question:* WHAT CONSTITUTES TAXABLE INCOME?

Answer: Your income is made up of your full salary or wages before any deductions whatsoever, plus living allowances, gratuities or bonuses (including cost of living bonus) and the value of any board, living quarters or supplies, etc., given you by your employer. It also includes such receipts as interest and dividends, rents (after taxes, repairs, etc.), royalties and annuities. From your total income you deduct payments (up to $300) into certain types of employees' superannuation or pension funds, charitable donations up to 10% of your income, and medical expenses over 5% of your income (maximum—$400 single, $600 married, plus $100 for each dependent up to four), to find the amount of your *taxable income*.

5. *Question:* HOW MUCH DO YOU PAY?

Answer: (A) **Normal Tax**—(whichever rate is applicable is applied to the full amount of your taxable income from the first to the last dollar).

(1) Single—
with taxable income between $660 and $1800—7%
with taxable income between $1800 and $3000—8%
with taxable income over $3000—9%

(2) Married (or equivalent status)—
with taxable income over $1200—7%

(3) Dependents—tax credit for each—$28

(B) **Graduated Tax**—

(1) On first $660 of taxable income—No Tax.

30% on next	$ 500	55% on next	$ 1,000
33% on next	500	60% on next	7,000
37% on next	1000	65% on next	10,000
41% on next	1500	70% on next	20,000
45% on next	1500	75% on next	20,000
50% on next	3000	80% on next	30,000

85% on excess over $100,000

(2) Married (or equivalent status)—tax credit—$150

(3) Dependents—tax credit for each—up to $80

(C) **Surtax**—4% on investment income over $1500 without exemptions.

NOTES

(1) In no case are you required to pay a net tax (i.e., after credit for dependents) which would reduce your taxable income below $660 single or $1200 married.

(2) If a wife has *unearned* income over $660, then both she and her husband are taxable as single persons, but any amount a wife *earns* does not affect her husband's right to be taxed as a married person. A married woman is taxed as a single person under all circumstances except only when her husband's income is less than $660.

A booklet entitled
"YOUR 1942 INCOME TAX"
will be available shortly at offices of Inspectors of Income Tax.

(D) **Tax Credit for Personal Savings**—
You may deduct from the savings portion of your tax (Item 6) 1942 payments on account of—

(1) an approved employees' (or trade union) superannuation, retirement or pension fund;

(2) premiums on life insurance policies issued prior to 23rd June 1942 (if issued after that date ask your insurance company or Inspector of Income Tax);

(3) annuity or savings policies not postponable without substantial loss or forfeiture; and

(4) principal payments on a mortgage or agreement of sale, existing prior to 23rd June, 1942, on one residential property;

provided (a) they do not exceed the savings portion and (b) receipts are produced for the payments when filing your Income Return.

(E) **National Defence Tax**—
This tax does not apply after 31st August, 1942. The deductions made during January to August 1942 apply as a payment on account of your 1942 tax.

6. *Question:* HOW MUCH OF YOUR TAX IS SAVINGS?

Answer:

(1) Single—the *lesser* of
(a) ½ the total of your Normal Tax, Graduated Tax and Surtax; or
(b) 8% of your taxable income (maximum $800) plus 1% for each dependent (maximum $100 for each).

(2) Married (or equivalent status)—the *lesser* of
(a) ½ the total of your Normal Tax, Graduated Tax and Surtax; or
(b) 10% of your taxable income (maximum $1000) plus 1% for each dependent (maximum $100 for each).

You will get back the savings portion of your tax which you actually pay, plus 2% interest, after the war.

7. EXAMPLES OF AMOUNTS PAYABLE ON 1942 EARNED INCOME

PART II - *As it Affects*

PERSONS OTHER THAN SALARY and WAGE EARNERS

(Such as business or professional men, investors, and persons on commission)

1. PAYMENTS—You must pay your 1942 income tax by quarterly instalments beginning on the fifteenth day of October 1942. Remittance Form T.7-B Individuals, to be sent in with your payments, may be secured from Inspectors of Income Tax some time in September.

2. RETURNS—You file your 1942 Income Return on Form T.1, on or before the thirtieth day of April 1943.

NOTE:—Items *1, 4, 5 and 6 of Part I also apply.*

IF YOU ARE AN EMPLOYER paying any person on a daily, weekly, monthly or any other basis, it is your responsibility to deduct Income Tax instalments from the salaries or wages you pay, commencing with the first pay period beginning in September, and send the amounts deducted to your Inspector of Income Tax within one week from the pay-day. *There are severe penalties* for failure to deduct or remit. If you are in doubt as to your obligations to deduct, communicate with your Inspector of Income Tax *at once.*

Sugar Allowed For Apple Sauce

Encouragement is being given by the government to domestic consumption of apples. With restrictions on many lines of food, the sale of Canadian apples is being pushed. The sugar administrator announces that until further notice domestic consumers may buy extra sugar by voucher, for apples consumed in the household. This extra supply is equal to 5 lbs. per box, or one pound of sugar to 8 lbs. of apples. It is suggested that applesauce may be put up for winter and spring use.

British Columbia has a heavy apple crop, with 6,000,000 boxes of high grade apples for the domestic market. The opening price of the main apple crop is said to be an all-time low.

Sugar For Pickles

At a meeting of the Women's Advisory Committee of the Wartime Prices and Trade Board, held on August 10 at Vancouver, it was decided to ask for sugar for pickles as well as for fruit. It was pointed out that it was just as important to conserve the vegetables for winter use as the fruit, and that pickling was an important part of the conservation program. Very few pickles are made without some sugar, and honey and syrup are expensive as substitutes. Brown sugar has been the accepted sweetener for pickles and, if this could be used, there would be many more pickles made at home, which would lessen the demand for the commercial product this winter.

WAR NOTES

Grim Defence of Russian City; British and Russian Planes Attack Germany From East and West

British people were encouraged this week by the news from Egypt. Rommel has been driven back under ceaseless Allied attack, and has little to show but loss of men and equipment for his latest drive toward the Valley of the Nile. Axis forces are reported to have lost heavily in tanks, trucks, planes and men.

Wendell Willkie who has been on the Egyptian front discloses that 100 of Rommel's 290 first line tanks were destroyed by Allied forces in the first battle of the new offensive.

Stalingrad is still holding, with civilians side by side with the Russian soldiers in driving back the German invader. The proximity of the city to the Volga river, increased difficulty of complete encirclement. Enormous loss of life is part of the toll in this terrific siege.

The situation however, is increasingly grave, as the Germans launch further troops against Stalingrad. Russians are speeding the building of new fortifications.

During recent days, Russian lines have stiffened notably in other sectors of fighting and attacks in the vicinity of Moscow have been successfully repelled, with heavy loss of planes for the Nazis. A Russian offensive is developing near Moscow, and any German advance along the long battle line has been slowed down.

Double Attack

The R.A.F. and R.C.A.F. have been striking Germany from the west, while Russian airmen have flown in from the east. Russian targets included Vianna, Koeninsburg and Breslau.

After a devastating attack on Bremen, the R.A.F. and R.C.A.F. continued invasion of the continent by air assaults. Eleven aircraft were missing from the raid on Bremen. This is the 99th attack on Bremen. German authority is quoted in saying that 6000 German refugees had got to Danzig and 2500 to Poland from German areas bombed by the British.

Budapest suffered a raid which may have come from an R.A.F. flight from Britain or Malta. It is 2000 miles from British bases.

In New Guinea

In the Pacific area, Jap troops have been pushing on in New Guinea toward Port Moresby This is 60 miles from the Allied base. Allied planes have cost Jap attackers seriously for their attempted gains.

The battle of the islands north of Australia is continuing, with air attack demoralizing to positions claimed by the Japs.

American Sky Dragons have been destroying Jap military centres at Nanchiang, and smashing junks loaded with troops near Hankow.

Roosevelt Promises

Speaking in a Labor Day address, President Roosevelt spoke of preparations for offensive action in Europe, declaring that there are at least a dozen different points at which attacks may be made. He predicted that Russia would hold out and "with the help of the Allies, will ultimately drive every Nazi from her soil." The German army must spend another cruel winter on the Russian front.

Speaking of the Pacific, he said: "One major Japanese offensive has been stopped, but the enemy will strike hard again. Victories in the Solomons were local operations, and should not be over-rated."

In respect to the Mediterranean and Egypt, he spoke of the desperate battle for control of the Mediterranean and Indian oceans. "We are aware of the danger but hopeful of the outcome."

He said that the American people were not doing enough toward winning the war.

His chief warning to the American people was against the dangers of inflation. Failure to solve that problem at home, would make more difficult the winning of the war.

Canadian Trucks in Iran

Word comes from Iran that Canadian trucks are winding along the camel trails of Iran and moving up with military supplies for Russia. The road compares with the old Burma road, with summer temperature in parts up to 120 degrees, and narrow mounting passes 10,000 feet high. It carries the bulk of supplies from this country and England to the Red Army through the Persian route. The Canadian trucks are assembled at Bushire, on the Persian Gulf.

It is now ILLEGAL
to HOARD scrap steel
or UNUSABLE machinery

The Steel Controller has ordered that, after September 15, 1942, no person may retain in his possession scrap iron or steel weighing a total of 500 pounds or more unless he has a permit.

(For the purposes of the new regulations, scrap metal includes machinery, structural steel, or any other article or commodity containing iron or steel, which is not serving an immediate vital purpose.)

The order also provides:

That anyone, coming into possession after September 15 of scrap iron or steel weighing 500 pounds or more, must dispose of it within 20 days.

That any person having a valid reason for not disposing of scrap metal as scrap metal or who believes that it can serve some essential purpose, must send in a report by September 15 to the Used Goods Administrator of the *Wartime Prices and Trade Board*, Lumsden Building, Toronto. His report must reveal the exact description, quantity, and location of his scrap metal.

The provisions of the order do not apply to scrap dealers who are already subject to previous orders; nor do they affect metal fabricators and processors who are in legal possession of metal to be used in manufacturing.

A copy of the order, S.C. 16, may be obtained from the Steel Controller, Department of Munitions and Supply, Ottawa.

Infractions of the new regulations are subject to a fine of up to $5,000, or imprisonment of up to five years, or both fine and imprisonment.
